#### SMART TECHNOLOGIES

**BREATHESMART**

This is the art of ensuring 360 degree breathability for the hands.

**FITSMART**

This is the art of making Ninja<sup>®</sup> gloves feel like a second skin.

**GRIPSMART**

This is the art of providing outstanding grip to Ninja<sup>®</sup> gloves in dry, wet and oily conditions.

**THERMSMART**

This is the art of achieving outstanding thermal protection.

#### PROPRIETARY TECHNOLOGY

#### HPT™ - Superior Grip and Dexterity

The Hydropellent Technology (HPT™) is a unique proprietary coating that repels liquid and provides excellent grip in wet, dry and oily conditions. The HPT™ offers secure handling gloves that are lightweight, have superior grip and dexterity, whilst being supremely comfortable. Further, this unique coating has “encapsulated air pockets” which absorb and mitigate the effects of light vibrations.
